

**Geely Automobile Holdings Limited Announced  
SALES VOLUME UP 12% YOY IN APRIL 2007**

(HONG KONG, 9 May 2007)--- **Geely Automobile Holdings Limited** ("Geely Automobile"/the "Group")(Stock code: 175) announced that total sales volume at the Group's four 46.8%-owned associates was 16,066 units in April 2007, up 12% over the same month last year, but was down 11% from that of the previous month. The total sales volume of the four associates in the first four months of 2007 was 67,201 units, up 7% over the same period in 2006.

**The spokesman of Geely Automobile** said, "The sales performance of the four associates since March 2007 has been slightly behind the management's expectations, likely to be due to the intensified competition in China's sedan market as evidenced by a series of competitive price cuts by major sedan manufacturers since March this year. Despite this, the sales performance of 'Free Cruiser' and 'Geely Kingkong' models remained encouraging with about 10,000 units of 'Free Cruiser' and 'Geely Kingkong' sold during April 2007. Although the four associates only achieved 28% of their combined annual sales volume target of 240,000 units in the first four months of 2007, the management remains confident that the four associates' sales volume growth should speed up in the remainder of the year helped by the pick up in the sales of 'Vision' after a new round of marketing campaign starting from May 2007, and the addition of new production capacity in China and oversea markets in the coming few months."

Detailed sales volume data will be available upon request. Please contact Ms. Tracey Tong of Jovian for further information. The sales volume figures released so far in 2007 are based on a more stringent recognition criterion, requiring all sales to be contracted, paid and delivered before it would be recognized. These figures, however, are still preliminary figures and would be subject to changes and final confirmation.
