

Geely Automobile Holdings Limited
TOTAL SALES VOLUME FOR FEBRUARY 2020 WAS 21,168 UNITS
TOTAL SALES VOLUME DOWN 75% YOY

(HONG KONG, 09 March, 2020) --- Geely Automobile Holdings Limited ('Geely Automobile'/the 'Group')(Stock code: 175) announces that the total sales volume of the Group (including the sales volume of LYNK & CO-branded vehicles sold by the Group's 50%-owned joint venture) for the month of February 2020 was 21,168 units, a decrease of approximately 75% from the same period last year. The lower February sales volume is largely due to the disruption caused by the recent outbreak of novel coronavirus (COVID-19) in China. Further, the less working days during the month due to the earlier Chinese New Year holiday this year also affected the Group's sales performance during the period. The total sales volume in the first two months of 2020 was 133,006 units, a decrease of approximately 45% from the same period last year, and achieving 9% of the Group's full year sales volume target of 1,410,000 units in 2020. Of the total sales volume in the first two months of 2020, 6,421 units were new energy and electrified vehicles* (NEEVs). The Group's exports volume was down around 59% year-on-year to 4,847 units in the first two months of 2020. During the first two months of 2020, the Group's total sales volume in the China market was 128,159 units, a decrease of around 44% from the same period last year.

The Spokesman of Geely Automobile said, "During the month of February 2020, the total sales volumes of sedans, sport utility vehicles (SUVs) and multi-purpose vehicles (MPVs) were 8,321 units, 11,934 units and 913 units, respectively."

During the same period, the total sales volume of LYNK & CO-branded vehicles was 2,066 units.

-END-

The sales volume figures released are based on a more stringent recognition criterion, requiring all sales to be contracted, paid and delivered before it would be recognized. These figures, however, are preliminary figures and will be subject to changes and final confirmation.

**Note: For clarity, the new energy and electrified vehicles only included the electric vehicles (EVs), hybrid electric vehicles (HEVs), mild hybrid electric vehicles (MHEVs) and plug-in hybrid electric vehicles (PHEVs).*
