

[Press Release]

**Geely Automobile Holdings Limited
SALES VOLUME UP 3.7% YoY IN AUGUST 2008**

(HONG KONG, 11 September 2008)--- Geely Automobile Holdings Limited (“Geely Automobile”/the “Group”)(Stock code: 175) announced that total sales volume of the Group's five 91%-owned subsidiaries was 14,187 units in August 2008, up 3.7% over the same month last year, but down 10.1% from July 2008. For the first eight months of 2008, total sales volume of the five subsidiaries was 136,924 units, up 25.6% over the same period last year, and achieving 60% of their full year sales volume target of 230,000 units.

The spokesman of Geely Automobile said, “The sales performance of the Group's five operating subsidiaries during the month met the management's expectations. The month of August was traditionally the slack season for domestic sales of sedans. The Beijing Olympic Games held in August this year also negatively affected sales of sedans in some areas like Beijing. Despite this, sales performance remained stable during the month of August 2008, helped by the continued strong demand in the export markets with close to 6,000 cars exported in the month. ”

Detailed sales volume data will be available upon request. Please contact Ms Tracey Tong at Prime International for further information. The sales volume figures released so far are based on a more stringent recognition criterion, requiring all sales to be contracted, paid and delivered before it would be recognized. These figures, however, are still preliminary figures and would be subject to changes and final confirmation.
