## [Press Release]

### Geely Automobile Holdings Limited

#### SALES VOLUME UP 52% YOY IN JUNE 2009, ACHIEVING 55% OF FULL YEAR TARGET IN 1H2009

(HONG KONG, 10 July 2009)--- Geely Automobile Holdings Limited ("Geely Automobile"/the "Group")(Stock code: 175) announced that total sales volume of the Group's five 91%-owned subsidiaries was 23,422 units in June 2009, up 52% over the same period last year but down 14% from May 2009. For the first six months of 2009, the total sales volume of the Group's five 91%-owned subsidiaries was 137,758 units, up 29% over the same period last year, achieving 55% of the five subsidiaries' total target sales volume of 250,000 units for 2009.

The spokesman of Geely Automobile said, "The total sales volume achieved by the Group's five operating subsidiaries during the month was still encouraging, and very much in line with management's expectations. Despite the 14% MoM decline in sales volume, which is understandable given the exceptional strong sales over the past few months and the beginning of the summer low season in June, the strong sales momentum since early 2009 had continued in June, as evidenced by the continued strong YoY sales volume growth of 52% in June 2009. In particular, total sales volume for "Vision" model increased more than 40% from previous month to over 5,500 units in June, helped by the introduction of 1.5L version of Vision model in May 2009. During the month, export volume was maintained at a relatively high level at over 1,600 units, compared to the average monthly export volume of less than 800 units since last October. In the domestic China market, the five operating subsidiaries' sales volume in June 2009 increased about 80% over the same period last year to 21,793 units. "

Detailed sales volume data will be available upon request. Please contact Ms Tracey Tong at Prime International for further information. The sales volume figures released so far are based on a more stringent recognition criterion, requiring all sales to be contracted, paid and delivered before it would be recognized. These figures, however, are still preliminary figures and would be subject to changes and final confirmation.
